EXPERIENCE

Senior Infra Analyst – **NOMURA**

Jenkins, Grafana, Python, Docker, Nexus, Gitlab, Ansible, SonarQube & LINUX

📅 August 2024 – Present

📍 Mumbai, India (Hybrid)

- **Jenkins SME:** Lead the Central Jenkins platform, ensuring smooth operations by proactively identifying and resolving platform issues, orchestrating environment stability, and coordinating with cross-functional teams.
- **Monitoring & Automation:** Architected and deployed a robust Grafana infrastructure for real-time monitoring and alerting, significantly enhancing visibility across Jenkins environments.
- **Incident & Release Management:** Independently manage Severity 2/3/4 incidents, changes, and releases, ensuring reliable platform performance across Nomura's systems.
- **Cloud Infrastructure Management:** Handle cloud budgeting, resource commissioning, and decommissioning on Nomura's private and AWS cloud environments, including server and database management.
- **Automation & Scripting:** Develop scripts for automated maintenance of Jenkins agents and SonarQube, streamlining operational processes and reducing manual effort.
- **IT Service Management:** As an ITIL practitioner, ensure all infrastructure processes align with best practices in IT service management, enhancing service quality and compliance.
- **Vendor Product Management:** Oversee tools like GitLab, Nexus, and more, ensuring optimal integration and functionality within the infrastructure.

Support Analyst – **Wiley Edge (NOMURA)**

Jenkins, Python, Docker, Ansible & LINUX

📅 July 2022 – August 2024

📍 London, UK (Remote)

- **Jenkins Platform Support:** Supported the Jenkins environment by managing platform stability, troubleshooting issues, and coordinating basic incident resolution and change management.
- **Automation Support:** Developed scripts to automate routine tasks, optimizing backend operations.
- **Tool Integration:** Assisted in managing and integrating GitLab and Nexus, contributing to streamlined workflows and enhanced version control for development teams.

Backend Developer – **MFL Educlub**

SQL, C# & Asp.Net

📅 Jan 2021 – Dec 2021

📍 Odisha, India (Remote)

- Efficiently worked with a team of four professionals into developing a Web Application for the startup.
- Wrote various APIs to be used by the frontend, in C# and ASP.NET.

Software Engineering Virtual Intern – **JPMorgan Chase & Co.**

Python

📅 April 2020 – May 2020

📍 Odisha, India (Remote)

- Utilized JPMorgan Chase's tools to debug errors and build a real-time data interface showcasing financial data and trade insights.

EDUCATION

Bachelor Of Technology (Computer Science & Engineering)

Veer Surendra Sai University of Technology

📅 July 2018 – May 2022

📄 CGPA: **9.06**

AISSCE

Chinmaya Vidyalaya

📅 July 2016 – May 2017

SSE

Chinmaya Vidyalaya

📅 July 2014 – May 2015

TECHNICAL SKILLS

Development:

- C++, Python & C#

Web & Backend Development:

- ASP.NET, Django, SQL & MongoDB

Big Data:

- Apache Spark, PySpark & Spark SQL

Infrastructure & Automation:

- Jenkins, Gitlab CI, Docker, Podman, UNIX Scripting, Nexus, Ansible & SonarQube

Cloud, Container & Server Management:

- AWS, Rancher, Kubernetes, Linux & Windows Server Administration

DevOps/MLOps & Monitoring Tools:

- Grafana, Prometheus, MLflow & Splunk

ITIL & Service Management:

- ServiceNow, JIRA, Confluence & Postman

ACHIEVEMENTS

🏆 Columbia University Certified Software Developer.

🏆 Mentor @Astrosonic

🏆 GitHub Campus Expert

🏆 LeetCode – 2 ½ Star (Solved 150+)

🏆 InnoBuzz-2 Hackathon - 2nd Runner's Up
